LET'S GET ACQUAINTED

The Vocational Agriculture Farm Management Program in Northwestern Minnesota is prepared by the Thief River Falls Area Vocational-Technical School in cooperation with the Minnesota Department of Education and the Agricultural Education Department of the University of Minnesota. Since the initiation of the program in Thief River Falls in 1955, fourteen annual reports have been prepared.

This report is published annually to provide agriculture instructors and farmers with farm record analysis information which will be helpful to them in studying farming operations. The report is set up to show each cooperating farmer individual figures for his farm, and comparisons with the averages, the top twenty per cent and the bottom twenty per cent of the farms in the analysis. The report presents each farmer with figures showing his earnings, increase or decrease in net worth, financial standing and a number of efficiency factors on his various enterprises.

The analysis of the records and the preparation of the reports for Northwestern Minnesota are done under the direction of Ed Sisler of Area Vocational-Technical School at Thief River Falls. Clerical assistants for this project were: Phyllis Moun, Gladys Narverud, Barbara Restad, Marie Sorensen, Roberta Kosel, Katherine Freeman, Betty Ueland, Fay Gullickson and Fern Hedlund.

The Farm Management Program is supervised locally by Lloyd Johnson, Superintendent of Thief River Falls Public Schools and Arnt Aune, Director of the Area Vocational-Technical School, Thief River Falls, Minnesota. Mr. G.R. Cochran of the State Department of Education, Dr. Milo Peterson of the University Department of Agricultural Education, and Dr. T.R. Nodland of the Agricultural Economics Department have been available as consultants.

A special thank you is awarded to Dr. Ed Persons, Agriculture Education Department, for his outstanding leadership and work in designing the plan for computerizing the present Farm Management Program, and for designing the pilot check and monthly mail in programs presently underway.

This report deals with farmers enrolled twenty four schools in Northwestern Minnesota. The following tabulation shows the number of farmers submitting 1968 farm records for analysis, the schools cooperating and the names of the Vo-Ag instructors from these schools.

| <u>School</u> | <u>No. of Farmers</u> | <u>Instructor</u> |
|-------------------------------------|-----------------------|--------------------------------|
| Ada | 6 | Lowell Gunderson |
| Barnsville | 1 | Clarence Ebert |
| Detroit Lakes | 18 | Clayton Olsen |
| | 5 | Gunder Hanson |
| | 16 | Duane Lemmon |
| Fergus Falls | 18 | Bert Winger |
| Fertile | 47 | Conrad Carlson |
| Fisher | 3 | Winslow Helt |
| Fosston | 16 | Dean McNelly |
| Goodridge | 19 | Wally Shodean |
| Greenbush | 6 | Bernard Nelson |
| Hallock | 4 | Myles Sedenquist |
| Hawley | 1 | John Hest |
| Henning | 1 | Darrell Sand |
| Karlstad | 5 | Harlan Hokanson |
| Middle River | 9 | Fred Fredrickson |
| Moorhead | 1 | Ray Maxson |
| Pelican Rapids | 9 | Elvin Andrews |
| Perham | 14 | Phil Toedter |
| Plummer, Red Lake Falls, | | |
| Oklee | 5 | Harry Oen |
| Roseau | 45 | Joe Freeman |
| Thief River Falls | 28 | Don Johnson |
| Thief River Falls | 47 | Verne Spengler |
| Twin Valley | 1 | Ken Skauge |
| Ulen | 3 | Eugene Pulles |
| Areas not served by Vo-Ag Depts. | 5 | Ed Sisler Vo-Ag Coordinator |

The records kept included farm inventories, cash receipts and expenses, feed consumed by the various classes of livestock, family living secured from the farm, household and personal expenses and receipts and the operators liabilities and assets other than farm capital.

ELECTRONICS

A large part of the analysis this year was prepared by the Agricultural Records Cooperative in Madison, Wisconsin, which employs computers for automatic data processing. The Thief River Falls Analysis Center utilizes this resource to streamline its operation, so that the increasing number of records submitted can be efficiently handled.

INVESTMENT IN FARMING

The average capital investment per farm varied from \$38,658 for the low 20% to \$89168 for the high 20%. The average investment for all farms included in this report and for the 55 high and the 55 low in operator's labor earning is shown on Table 1.

WHY KEEP FARM RECORDS?

Systematic use of records seems to raise the managerial level of the farmers. Once a farmer starts using records to check up on his performance, it is likely that he will continue for some years to improve his position above that of his less systematic neighbor.*

FARM EARNINGS

There are three earnings statements contained in this report. Tables two and six are earnings statements with a cash basis. Table two shows the labor earnings to the farm. "Labor earnings" is the amount that would be left as a salary to the farm operator if he paid hired man's wages for the labor of other members of the family and five per cent interest on all capital used.

The third earnings statement, table 3, is an enterprise or accrual earnings statement. The principle difference between cash earnings statements, table 2 and 6, and the enterprise statement, table 3, is the method of handling the increase or decrease in the value of farm capital. In the cash statement the increase or decrease in farm capital is entered as one item. In the enterprise statement, the net change in the inventory of farm capital has been included in each enterprise in order to compute "total expenses and net decreases" by enterprises.

RETURNS TO CAPITAL

The return to capital and family labor represents the amount the farmer and his family earned with their labor and capital investment. This figure is found in Tables 5 and 6.

WHAT IS THE CAPITAL INVESTMENT PICTURE IN OUR FARM BUSINESS?

| Number of farm operators | 1 | 1 | 1 |

RANGE IN EARNINGS

Every study of farm earnings shows a wide variation in earnings among farmers in a given year (Fig. 1). The average operator's earnings of those farmers ranking in the upper 20 per cent of the range according to earnings was \$16,145 and of those in the lower 20 per cent was \$ -894 . This is a range of \$15,251 between the average earnings. Some of the causes for these differences, such as weather, may be beyond the control of the individual farmer. Other factors are within his control. The more important management factors affecting earnings are as follows: 1) crop yield 2) returns from livestock 3) amount of livestock 4) size of business 5) work units per worker 6) control over expenses. These factors vary from year to year in their relative influence on earnings.

HOUSEHOLD AND PERSONAL EXPENSES AND RECEIPTS

Household and personal accounts are important if the family is to manage its financial affairs wisely. The household and personal expenses and receipts are presented in Table 4.

Table 4. Household and Personal expenses, 1968

| ITEMS | Average of 143 farms | 20% most prof. farms | 20% least prof. farms |

| Poultry | 1 | | 1 |
| Eggs | 2 | | 2 |
| TOTAL FAMILY LIVING FROM THE FARM | \$ 308 | \$ 472 | \$ 180 |

NET WORTH

A net worth statement includes a listing of all the assets and liabilities as of a given date. The difference between the farmer's total assets and his total liabilities is his net worth. Both the farm and personal assets and liabilities are included.

The difference between the operator's net worth at the beginning and at the end of the year equals the gain in net worth. It represents the financial progress that has been made during the year.

Table 5. Net Worth Statement, 1968, For Those Farmers Who Kept A Complete Record of all Assets and Liabilities.

**Acres include all tillable land plus acres in wild hay

THERMOMETER CHART

Your standing with respect to the various measures of farm organization and management efficiency are indicated in the thermometers below. The averages for the 279 farmers included in this summary are located between the dotted lines across the center of this page.

LABOR EARNINGS CORRELATED WITH EXCELLED FACTORS

Studies of earnings of farmers in this area show that there are seven major management factors causing variations in earnings among farmers within a given year. These seven factors are: (1) crop yields, (2) gross return per acre on crops, (3) returns from livestock, (4) amount of livestock, (5) size of business, (6) work accomplishments per worker, and (7) control over expenses. The combined or cumulative influence of these seven management factors on earnings is shown in table below.

| No. of factors in which farmers excelled | No. of farms | 0 | 3000 | 6000 | 9000 | 12000 | 15000 |
|--|--------------|-----------------|------|------|------|-------|-------|
| 0 or 1 | 53 | /// | | | | | 465 |
| 2 or 3 | 92 | ////////// | | | | | 5445 |
| 4 or 5 | 92 | ////////////// | | | | | 7755 |
| 6 or 7 | 37 | /////////////// | | | | | 12374 |

This table indicates that it may be worth while for each co-operator to study carefully his ranking on pages 15 and 16 and learn his standing with respect to each of the above factors and the elements of strength and weakness in his farm business.

CROP ANALYSIS

The following crop analyses represent an attempt to show net return per acre from each crop. The costs charged against each crop are:

- (1) the power and machinery costs, gas, oil, repairs, and depreciation
- (2) fertilizer
- (3) other costs: seed, chemicals, twine, seed treatment and hail insurance.
- (4) land cost: is the sum of 5.5% X land value plus tillable acre taxes
- (5) hired labor for such specialized crops as sugar beets and potatoes
- (6) miscellaneous costs such as irrigation charges
- (7) custom work hired

Table 9. Crop Production, 1968

| | Unit | Acres | Yield per acre |

TOTAL FEED COSTS AND RETURNS FROM YOUR LIVESTOCK ENTERPRISES

The total "return over feed costs" for each class of livestock is shown in Tables 11 through 13. This differs from the "return over feed" shown in the enterprise statement in that it is the total for each class of livestock instead of a return from all classes of livestock. These data indicate the relative importance of different classes of livestock as a source of income and as a market for feed. The total return is the same as the returns and net increases shown on page 7. The return over feed is not a net return, but rather the amount available, after feed costs, to cover the costs for hired labor, power, equipment, taxes, insurance, interest and veterinary bills and to provide a return for the use of family labor and capital.

Feed is the largest single item of cost for all classes of livestock. However, the proportion of the total cost represented by feed varies considerably between classes of livestock. Feed makes up approximately 45 per cent of the total cost of maintaining dairy cattle and poultry, 50 per cent in the case of a farm flock of sheep, and 75 to 90 per cent for hogs, feeder cattle, and feeder lambs. Consequently, it is necessary to secure a relatively higher return over feed from dairy cattle and poultry than from the other livestock enterprises in order to be able to cover all the costs other than feed.

Supplemental costs have been included in the computer analysis of all livestock enterprises to more nearly reflect total costs of livestock production.

| <u>Board for hired labor</u> | \$2.70 per day | Hogs (live) | .19 per lb. |
| Unless otherwise specified | | Eggs | .35 per doz. |

EXPLANATION OF "WORK UNITS"

The total "work units" for any one farm is a measure of the size of that farm business. A work unit as used in this report is the average accomplishment of a farm worker, in a ten hour day, working on crops and productive livestock at an average efficiency. The number of work units for each class of livestock and each acre of crop are presented in Table 25. Days of work off the farm for pay are not included in work units computations in this report.

Table 25. Number of Work Units for each class of livestock & acre of crop

| Item | No. of work units | Item | No. of work units |
|------------------------|----------------------|-----------------------|----------------------|
| Dairy cows | 7.00 per cow | Turkeys, Laying Flock | 25.00 per 100 |
| Other dairy cows | | Turkeys, Poult | .12 per cwt |
| Beef breeding cows | | Bees | .33 per hive |
| Other beef breeding | 1.00 per head | Small grain | .3 per A. |
| Feeder cattle | .12 per cwt | Corn for grain | .55 per A. |
| Sheep, farm flock | .6 per head | Corn silage | .8 per A. |
| Lambs, feeders | .30 per cwt | Alfalfa | .6 per A. |
| Hogs, complete | .12 per cwt | Other hay | .4 per A. |
| Hogs, finishing | .06 per cwt | Legume seed | .4 per A. |
| Hogs, weaning pigs | 1.40 per lit. | Grass silage | .4 per A. |
| Chickens, laying flock | 5.00 per 100 | Potatoes | 3.0 per A. |
| Chickens, broilers | .20 per cwt. | Sugar beets | 20.00 per A. |
| | | Fallow | .4 per A. |

A joint committee of Agriculture Education Economies have revised the work unit assignments. Generally, this has resulted in lower total work units, and lower work units per worker.

Table 27. Summary of Farm Earnings by Years

| Years | 1964 | 1965 | 1966 | 1967 | 1968 |
|--------------------------------------|---------|-------|-------|-------|-------|
| Number of farms | 151 | 202 | 253 | 226 | 279 |
| <u>FARM RECEIPTS</u> | | | | | |
| Dairy & dual purpose cattle | \$ 918 | 1251 | 1754 | 1748 | 1701 |
| Dairy products | 4030 | 4105 | 5457 | 6400 | 6586 |
| Beef cattle (incl. feeders) | 2640 | 2625 | 2515 | 3430 | 3197 |
| Hogs | 883 | 1166 | 1470 | 1455 | 1220 |
| Sheep & wool (incl. feeders) | 378 | 322 | 277 | 380 | 444 |
| Other productive livestock | 14 | 37 | | 99 | 40 |
| Poultry (incl. turkeys) | 1929 | 2310 | 2199 | 1911 | 448 |
| Eggs | 829 | 664 | 581 | 731 | 535 |
| Honey sold | 103 | | | | |
| Crops | 4731 | 4970 | 4768 | 7081 | 7898 |
| Mach. & equip. sold & gas tax ref. | 319 | 410 | 269 | 293 | 651 |
| Income from work off the farm | 323 | 188 | 227 | 726 | 253 |
| Miscellaneous | 537 | 635 | 907 | 494 | 737 |
| (1) Total farm sales | \$17634 | 13683 | 20424 | 24748 | 23710 |
| (2) Increase in farm capital | 1743 | 2345 | 4925 | 5060 | 4712 |
| (3) Family living from the farm | 264 | 283 | 325 | 312 | 301 |
| (4) Total farm rec. (1)+(2)+(3) | \$19646 | 21311 | 25669 | 30120 | 28723 |
| <u>FARM EXPENSES</u> | | | | | |
| Dairy & dual purpose cattle bought | 172 | 168 | 398 | 464 | 277 |
| Beef cattle bought (incl. feeders) | 1137 | 641 | 1197 | 791 | 993 |
| Hogs bought | 56 | 66 | 65 | 42 | 107 |
| Sheep bought (incl. feeders) | 43 | 40 | 84 | 154 | 67 |
| Other productive livestock | 26 | 25 | | 28 | 27 |
| Poultry bought (incl. turkeys) | 404 | 425 | 474 | 576 | 167 |
| Misc. livestock expense | 457 | 441 | 494 | 656 | 413 |
| Feed bought | 2776 | 3232 | 3344 | 3548 | 2263 |
| Fertilizers | 838 | 867 | 924 | 1346 | 1434 |
| Other crop expense | 960 | 1017 | 917 | 1250 | 1292 |
| Custom work hired | 627 | 659 | 717 | 698 | 858 |
| Gas, oil, & grease bought (f.s.) | 1042 | 1002 | 1113 | 1181 | 1214 |
| Rep. of mech. power (f.s.) | 504 | 523 | 657 | 1240 | 1257 |
| Rep. & upkeep of real estate | 149 | 148 | 175 | 220 | 226 |
| Rep. & upkeep of crop & gen. mach. | 415 | 418 | 393 | | |
| Rep. & upkeep of livestock equip. | 98 | 95 | 135 | 165 | 152 |
| Wages of hired labor | 743 | 654 | 612 | 740 | 783 |
| Electricity expense (f.s.) | 269 | 262 | 291 | 321 | 292 |
| Real estate & pers. prop. tax | 675 | 637 | 685 | 827 | 527 |
| General farm expense | 259 | 272 | 312 | 389 | 395 |
| (5) Total cash operating expense | \$11655 | 11592 | 12992 | 14836 | 12764 |
| (6) Cap. purchases-mech. power(f.s.) | 836 | 911 | 1060 | 3191 | 3839 |
| (7) Cap. purchases-Crop & gen.mach. | 1019 | 997 | 1427 | | |
| (8) Cap. purchases-lvstk. equip. | 196 | 195 | 487 | 448 | 212 |
| (9) Cap. purchases-bldgs. & fenc. | 1623 | 1255 | 2004 | 2134 | 2217 |
| (10) Total farm pur. (5) to (9) | \$15334 | 14950 | 17990 | 20659 | 19082 |
