PROGRAM OVERVIEW 2004

Historically, Farm Business Management Education has been a part of education programs in Minnesota high school and post-secondary levels since 1953. From the early cooperative efforts of the State Department of Education and the Department of Agriculture Education (University of Minnesota), the program has expanded to serve over 4,000 farm businesses each year in Minnesota. The Farm Business Management Education Program is now an integral part of the Minnesota State Colleges and Universities System.

A typical farm business enrolls for 10 semester credits per year as part of their educational plan. To assist the student in achieving their educational goals and objectives, the program has been organized to conform to the following guidelines:

1. Farm families enroll in a specific management course.
2. Each course has a specific objective and units of instruction to meet the objective.
3. Courses are offered in sequence and farmers are expected to enroll in the first of the sequence of courses.
4. There is continuity to each course. Each leads to the next course in the sequence.
5. Instruction occurs both in the classroom and on the farm with the farm family.

Programs organize their curriculum around the same central theme. They are:

- Level 1 - Introduction to Farm System Management
- Level 2 - Farm System Analysis and Evaluation
- Level 3 - Interpreting and Modifying Farm System Management Plans
- Level 4 - Farm System Trends and Projections
- Level 5 - Integrating Current Information into Farm System Plans
- Level 6 - Examining the context of Farm System Management Plans

Like most educational programs, members benefit from the instruction in relation to how much effort they put into study. Some farmers have benefited more, and some less, depending upon how seriously they studied the results of their business analysis and the kind of decisions they made as a result of their analysis.

The information in this report is organized under the direction of Jim Molenaar, Regional Dean of Management Education at Ridgewater College. Directing in a supervisory capacity is Dr. Douglas Allen, Ridgewater College President, and Mr. John Murray State Director of Management Education Programs, Minnesota State Colleges and Universities System. Kevin Clough and Kay Scholten provide clerical assistance and organization of the report.

The tables in this report were created using FINPACK and RankEm Central, copyrighted software of the Center for Farm Financial Management, University of Minnesota. You will notice that a standard format is used for each of the tables.

You should also note that the criteria for determining the report columns changes in the different segments of the report. The criteria used are as follows:

| Analysis Section | Criteria to determine the report columns |
|------------------|--|
| Financial | 5 columns by 20% Net Farm Income(Profit/Loss) |
| Crops | low and high Return to Overhead of that specific crop |
| Livestock | low and high Return to Overhead of that specific livestock |

What a Farmer Spends in the Community....

2004

West Central and Central MN

| Where the Money was Spent: | What the Money was used for: | Amount |
|---|--|---------------------|
| To Other Farmers | Feeder Livestock and Custom Work | \$27,242 |
| To Agri-Business | Feed, Lvstck Suppl, Vet, | \$63,232 |
| | Crop Expense | \$94,492 |
| | Fuel, Lubricants & Repairs | \$36,987 |
| | General Expense | \$19,547 |
| | Hired Labor | \$15,982 |
| Individuals | | |
| Utility Company | Utilities | \$6,063 |
| Lenders or Other Farmers | Use of Capital: Interest ,Rent & Leases | \$65,164 |
| Local Government | Real Estate Taxes | \$2,656 |
| Agri-Business or Other Farmers | Breeding Livestock, Machinery, Equipment, Buildings, Land, and Other. | \$65,020 |
| Household and Personal Expense | Food, Clothing, Furnishings, Education Contributions, Medical, Gifts, Recreation, Investments, Soc. Security Tax and Income Tax. | \$56,162 |
| Total money spent in the community by a farmer in this database | | \$452,547 |
| A Farmer's Contribution to Local Economy in 30 Years of Farming!!! | | \$13,576,410 |

Trivia to Impress Your Friends and Neighbors!

- 28% of all employment in West Central Minnesota is in the agriculture industry.
- Agriculture exports were 19% of Minnesota's total - over \$2 billion dollars annually.
- You could theoretically fit all of Minnesota's farmers in the Metrodome at one time. (79,000 farms - qualified by selling \$1,000 or more of agriculture product annually)
- In 2003 the total cost of Federal Farm Program payments paid to farmers cost each U.S. consumer less than \$45 per year or \$.13 per day.
- Livestock in Minnesota provides 53,000 jobs and a \$20.8 billion dollar economic impact.
- In "real dollars" adjusted for inflation, a bushel of corn sold in 1974 would be the equivalent of over \$10 per bushel today.
- Area average corn yields have increased by over 100 bushels per acre since the 1950's.
- In 1953 West Central MN farms averaged 266 acres. In 2004 the average acreage farmed was over 700.
- The impact of inflation is significant in farm country. In the 1950's the cost of living was under \$5,000 per year. In 2004 the average cost of living was over \$50,000. With declining prices (in real dollars) and relatively "flat" profit margins, many farmers have expanded the size and scope of their operations or added off-farm employment.
- In 1974 a farmer could purchase a 250 hp tractor for approximately \$25,000. In 2004 the sticker on the similar size tractor would near \$150,000. A dairy farmer in 1974 needed the profit from 202 cows to purchase this tractor. In 2004 he would need at least 381 cows.

Farm Income Statement
